Siva Sarkuna Pandi

Application Support Engineer | System Design | Troubleshooting Specialist

Phone: +91 636982266 | Email: sivasarkunapandi@gmail.com

Career Objective

Analytical MCA graduate with expertise in debugging, system analysis, and application support. Seeking to contribute to design, simulation, and troubleshooting roles by leveraging strong problem-solving skills and software development knowledge.

ATS Keywords

1. Application Support
2. Troubleshooting
3. Debugging
4. System Analysis
5. Software Testing
6. Validation
7. SQL
8. Python
9. JavaScript
10. Incident Management
11. Root Cause Analysis
12. Performance Optimization
13. FMEA (Failure Mode Effect Analysis)
14. Simulation Support
15. Technical Documentation
16. Client Support
17. Issue Resolution
18. Software Deployment
19. System Monitoring

Education

MCA – Nehru Institute of Information Technology and Management (2026) – CGPA: 7.8

BCA – Ayya Nadar Janaki Ammal College (2024) – CGPA: 7.7

Technical Skills

1. Programming: Python, JavaScript, SQL
2. Web Technologies: HTML, CSS, PHP
3. Core: Debugging, Troubleshooting, System Analysis
4. Tools: MySQL, Software Testing, Basic System Design

Projects

E-Commerce Web Application

1. Developed full-stack application with database integration
2. Performed testing, debugging, and validation
3. Handled real-world user scenarios and edge cases
4. Improved performance and resolved system issues

Automated File Organizer

1. Built Python automation tool for file classification
2. Optimized processing logic and handled edge cases
3. Improved efficiency and reduced manual workload

Internship

Web Development Intern – BaboolSoft

1. Debugged UI issues and improved performance
2. Resolved client-reported issues
3. Optimized application efficiency
4. Followed testing and deployment standards

Core Competencies

1. Application Support
2. Issue Resolution
3. System Testing
4. Documentation
5. Continuous Improvement
